

## Antelope Gap

---

"Antelope Gap" is an American reel in cut time and D Major. The parts are played AABB.

Antelope Gap is located in Platte County, Wyoming near Wheatland.

Dan Levenson's comments:

This one comes to me from the playing of Howard Rains and Trish Spencer on their Old Texas Fiddle recording. He says it comes from Texas fiddler J.W. Whatley. I don't think I have heard this one anywhere else but it has become a favorite of the Tucson jam crowd.

The banjo tablature is by John Letscher. His comments:

Name comes from an actual geographic location. Taken largely from the dulcimer playing of Mark Gilston. Reminiscent of "Run Down Boot".

It was printed in Dan Levenson's **Master Collection of Old-Time Tunes** (2023) and Mark Gilston's **More American Old Time Tunes For Dulcimer**.

It was recorded by Howard Rains on **The Old Texas Fiddle**.
