

## Cherokee Shuffle

Part A

Part B

A lot of banjo players and fiddlers call this tune **Cherokee Shuffle** when played in the key of A and **Lost Indian** when played in the key of D. This is the A version which is also a square tune. The D version, which is a crooked tune (having two extra measures in both the A and B parts) is also in this section.

It has been recorded by Delaware Water Gap, Howard Bursen, Old Reliable String Band, Fennigs All Stars and Norman Blake.

I learned it from Howard Bursen's **Cider in the Kitchen** album.

I play this in medleys with:

Georgia Railroad

Seneca Square Dance

both in this section and

The Girl I Left Behind Me

in the Songs section.
